DETAILED ACTION

This Office action is in answer to the election filed 12/2/2005 and the amendment filed 1/12/2005. The Office action mailed 11/4/2005 is vacated. Claims 43-71 are pending.

Election/Restriction

 This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I: the embodiment providing a protection system for a battery.

Species II: the embodiment providing a bistable electromagnetic arrangement.

Species III: the embodiment providing a casing for a device.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Application/Control Number: 10/521,353 Page 3

Art Unit: 2838

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named

inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of

inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37

CFR 1.17(I).

3. Any inquiry concerning this communication or earlier communications from the examiner should

be directed to Examiner Pia Tibbits whose telephone number is 571-272-2086. If unavailable, contact

the Supervisory Patent Examiner Karl Easthom whose telephone number is 571-272-1989. The

Technology Center Fax number is 571-273-8300.

4. Information regarding the status of an application may be obtained from the Patent Application

Information Retrieval (PAIR) system. Status information for published applications may be obtained from

either Private PAIR or Public PAIR. Status information for unpublished applications is available through

Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at

866-217-9197 (toll-free).
